

# BullGuard®

## INTERNET SECURITY

Powerful online  
protection for PC,  
Mac and Android

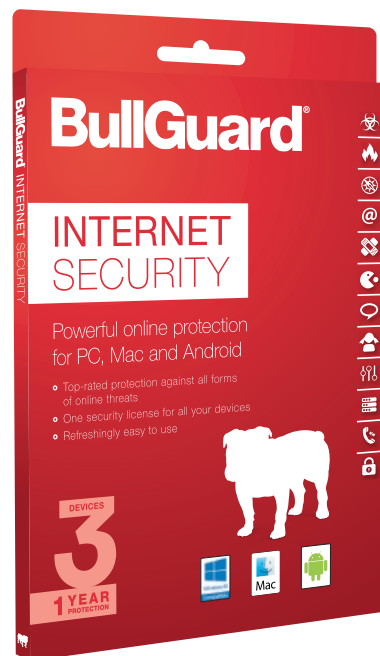

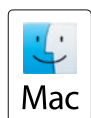

# BullGuard Internet Security is simply the best online protection you can get.

## Whatever devices you use.

**Because you use a variety of devices to work, play, shop and socialise online, our award-winning Internet Security now gives you the protection you need on your Macs and PCs as well as your mobile Android devices.**

BullGuard Internet Security was voted Best Buy and Best in Test in the UK and across Europe in 2016 and we're continuing to make it even better. Our latest version has lots of enhanced features including Cloud-integrated backup that lets you backup and encrypt all your personal files and pictures directly to Dropbox, Google Drive and One Drive.

You can rely on BullGuard Internet Security for its ease of use and its robust, multi-layered protection. It keeps you and your family safe from online threats like hackers, viruses, credit card fraud, spam and spyware, and keeps a discreet eye on your children's social media activity to help keep them safe online too.

BullGuard is all about making you and your family safe online, so you can surf, shop, bank and game with ease and confidence.

# Everything you need to stay secure online.

## Security from online threats

- Award-winning layered protection from hackers, viruses and spyware.
- Firewall to protect against intruders and network attacks.
- Spamfilter and safe browsing flags.
- Low impact on system resources.

## Keeps children safe online

- Comprehensive award-winning Parental Controls protects children from cyber bullying and predators.

## New interface is even easier to use

- Simple to set up, monitor and tailor online protection.

## Stay secure across all platforms with our Multi Device License

- Single License protects PCs, Macs and Android phones and tablets.
- Use any device in the office, at home or on the move, with full confidence.

## Online Backup

- Cloud-integrated Backup allows backup and encryption of files to Dropbox, Google Drive and One Drive.

## Protection that goes mobile with you

- Remote Lock and wipe, Locate with GPS and Scream alarm protects mobile devices from theft and loss.
- Call manager function blocks unwanted texts and calls.

## Protect 3 devices with one great value license

- Top Rated protection for all the family and multi devices users.
- Great value.
- Refreshingly easy to use.

# We keep you safe and we keep it simple!

Whenever you and your family connect to the Internet, there are risks involved, simply because it's all happening online – the good as well as the bad.

You need to protect yourself, your family and the computers you use. But you don't want to be slowed down when you're working, surfing, or playing games online.

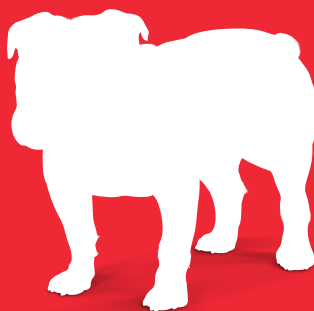

BullGuard is the only Internet Security vendor focusing exclusively on the home user and small office. BullGuard Internet Security has all the protection you're ever going to need but it's incredibly user-friendly and non-intrusive. That's why millions of people like you trust BullGuard to simply keep them safe online.

## BullGuard is the perfect solution for the way we live today.

BullGuard Internet Security lets you email, shop and bank with confidence, and with cloud-integrated backup your photos, music and documents are completely safe, whatever happens to your devices.

Whether you're gaming or banking, BullGuard's simple-to-use protection doesn't get in your way – total protection without loss of performance.

New award-winning Antivirus technology makes our malware detection way above industry average, placing BullGuard among the top security software vendors in the world. A fact demonstrated over and over again by extensive, independent testing and 'best buy' awards.
