

BullGuard®

Premium
PROTECTION

Rigorous identity
and social media
protection fused
with award-winning
malware defences

The Ultimate in Online Protection, for you and your whole family

- Award-winning Internet security
- Essential Social Media protection
- Rigorous Identity protection
- 10 devices covered by a single license

Total protection for everything you value

Today, as well as protection from hackers and viruses, you need security against online fraud and identity theft. And you need to keep children protected from cyber bullying and online predators.

BullGuard Premium Protection is based on our award-winning security suite that safeguards you from online threats like hackers, spam, viruses and spyware, and also provides the very best Identity Protection and Social Media Protection, whatever devices you're using.

Everything we do at BullGuard is about making you and your family safe on the Internet so you can surf, shop and bank online and use social networking with ease and total confidence.

The ultimate online protection – At a glance

Identity Protection

You simply list elements of the personal and financial details you need to protect, including:

- credit cards, debit cards and bank accounts
- driver's license, passport and Social Security numbers
- phone numbers, emails and address details, usernames and passwords

We monitor the web, social networks and stolen & compromised data sources, around the clock. The minute we detect your information may have been stolen or compromised we notify you by email and SMS. Helping to protect you from becoming a possible victim of financial fraud.

Social Media Protection

In addition to keeping your children safe on the Internet by blocking their access to suspicious websites, limiting their time online and monitoring their activity, BullGuard Premium Protection also lets you monitor your children's Facebook profiles, including photos and friends lists. We'll flag all possible threats to your children's safety, and notify you whenever we find inappropriate content or suspicious strangers.

And to help them manage their own safety online, your children have their own personalised dashboard in Facebook too, helping them get the most from social networking – in total safety.

What makes BullGuard Premium Protection the best security suite you can get?

Security from online threats

- Award-winning layered protection from hackers, viruses and spyware.
- Firewall to protect against intruders and network attacks.
- Spamfilter and safe browsing flags.
- Low impact on system resources.

Identity Protection

- 24/7 monitoring of web and social networks for any sign that personal, or financial information has been stolen or compromised.
- Immediate notification by email or SMS of any suspicious activity.

Safeguards Children and their Parents

- Comprehensive award-winning Parental Controls.
- Parent's dashboard for 24/7 monitoring of children's social media activity and reporting of inappropriate content and behaviour.

Stay secure on the move with a Multi Device License

- Single License protects PCs, Macs and Android tablets and phones.
- Use any device in the office, at home or on the move, with full confidence.

Protect 10 Devices with one License

- Top Rated protection for all the family and all their devices.
- Great value.
- Ideal for families and small businesses.

We keep you safe and we keep it simple!

Whenever you and your family connect to the Internet, there are risks involved, simply because it's all happening online – the good as well as the bad.

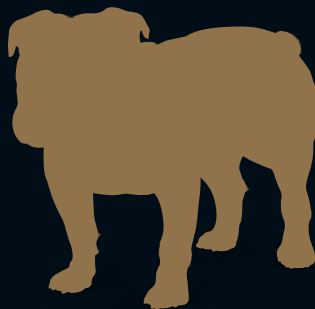

You need to protect yourself, your family and the computers you use. But you don't want to be slowed down when you're working, surfing, or playing games online.

BullGuard is the only Internet Security vendor focusing exclusively on the home user and small office market. BullGuard Premium Protection has all the protection you're ever going to need but it's incredibly user-friendly and non-intrusive. That's why millions of people like you trust BullGuard to simply keep them safe online.

BullGuard Premium Protection is the perfect protection for the way we use the Internet today

BullGuard Premium Protection lets you email, shop and bank with confidence knowing that your personal and financial information is protected, and with Cloud-integrated backup everything that's important to you is completely safe and available to you from any device connected to the Internet.

New award-winning Antivirus technology makes our malware detection way above industry average, placing BullGuard among the top security software vendors in the world. A fact demonstrated over and over again by extensive, independent testing and 'Best Buy' awards.
