 The best antivirus
 software for Windows
 Home User,
 October 2016

It is important for the end-user to be not delayed due to the slow response of his/her device. Slower download of frequently-used applications is one daily routine which should be restricted as little as possible.

■ ESET ■ Bitdefender *Lower is better

Feature	ESET	Bitdefender	Why it matters
Data or Email Encryption (Windows)	●	○	Businesses use encryption to protect corporate assets and ensure that only verified employees are able to access or use specific data (e.g. text messages or files).
Device Control (Mac OS)	●	○	Malicious insiders frequently use USB drives to quickly steal data or compromise systems, often without organizations being aware of the problem until it's too late. As a result, Device Control is now a critical component of data protection strategies for enterprises.
Data Backup (Windows)	●	○	ESET Remote Administrator includes the ESET Remote Administrator Maintenance Tool, which can be used to maintain and back up a server. Backing up a server is an important step in the process of migrating ESET Remote Administrator and client workstations to a new server. Tested products: ESET Remote Administrator (#DESlock), Bitdefender Endpoint GravityZone Source: AV-Comparatives, Review of IT Security Suites for Small Business, September 2016

ESET vs. Bitdefender

Awards

VB100 Awards

Virus Bulletin, www.virusbtn.com,
05/1998 - 12/2016

Since May 1998, ESET has passed every Virus Bulletin VB100 test in which it has participated, except one. Bitdefender did not participate in 36 tests and failed a total of 10 times. ESET does not hesitate to prove its quality in public tests.

Performance Test Advanced+ Awards

AV-Comparatives, www.av-comparatives.org,
12/2009 - 12/2016

Since 2009, ESET passed all AV-Comparatives Performance Tests. Moreover, ESET was awarded quite fourteen-times by Advanced+ awards.

■ ESET ■ Bitdefender

"The test corpus consisted of 81,796 emails. 73,710 of these were spam, ESET, stood out for missing just four emails from the spam corpus."

Virus Bulletin
VBSpam Comparative Review, September 2016

"ESET received the highest rating in the AV-Comparative File Detection Test and was awarded with the File Detection, Advanced+ Award. The File Detection Test assesses the ability of antivirus programs to detect malicious files on a system."

AV-Comparatives
File Detection Test, March 2016

"ESET Endpoint Security: The package detected all the malware threats in the test, with almost no burden on the System."

"ESET demonstrated excellent performance when it came to detecting over 11,000 selected Windows malware threats."

AV-Test
12 Security Suites for Mac OS X Put to the Test, July 2016

"ESET protected against all of the public web-based threats and targeted attacks. It blocked 100 per cent of the threats. This software was also entirely effective when handling legitimate objects, giving it the rare privilege of a 100 per cent overall rating."

SE Labs
IT Security Products for Small Business, July-September 2016

ESET earns 100th VB100 award

"ESET has been a top performer in our tests since 1998, and today we are delighted to present their 100th VB100 award – a first for any single product over the years," said John Hawes, Chief of Operations at Virus Bulletin, "ESET NOD32's history of excellent performances and zero false positives is a clear indicator of a very well-built, well-maintained and extremely reliable product."
