

ESET vs. Kaspersky Lab

Protection

Financial malware detection

MRG Effitas
www.mrg-effitas.com
 Online Banking
 Certification Project
 Q3 2016

Financial malware is a special category of malware which is designed to obtain financial information about victims and then use it to steal money from their accounts. **ESET is consistently rated very good at blocking financial malware.**

Protection ratings (%)

SE Labs
www.selabs.uk
 Home Anti-Malware
 Protection,
 July-September 2016

Ratings indicate how effectively the products deals with threats. **ESET blocked 100 per cent of web-based and targeted threats.**

Performance

Performance impact*

AV-Comparatives
www.av-comparatives.org
 Performance test,
 October 2016

Whether you consider powerful protection more important than minimal performance impact or vice versa, you won't go wrong choosing a product that tops the charts in all areas. **ESET provides well-balanced protection, performance and reliability.**

Traffic LAN (MB)*

AV-Comparatives
www.av-comparatives.org
 Network Performance
 Test,
 August 2016

Communication across a network is increasingly critical in the work environment. Similar to hardware on business systems, the behavior of the network has an impact on the operation of devices. **ESET demonstrated its low network impact in this test.**

■ ESET ■ Kaspersky Lab *Lower is better

Feature	ESET	Kaspersky	Why it matters
Antimalware (Mac OS)	●	○	Given the increasing growth of various types of malware, such as Trojan horses and viruses, antimalware, which is designed to protect against various malware attacks, is a very important feature.
Firewall (Mac OS)	●	○	A firewall is able to control network traffic allowed to access programs on the protected computer. Firewalls also provide some level of intrusion detection, allowing the software to terminate or block connectivity where it suspects an intrusion is being attempted.
Apple iOS clients	●	○	Even iPhones or iPads can be used by cybercriminals to commit crimes. If an iOS device is stolen or lost, the administrator can track, remotely wipe or lock/unlock the device. Our iOS client is integrated within ESET Remote Administrator, giving a full overview of network security.
Web Access Control (Mac OS)	●	○	Web Access Control is a mechanism that allows access to various websites except those explicitly mentioned on a blacklist (e.g. social networks, etc.).
Push installation from the console	●	○	With push installation, you can install packages in the LAN, and target computers that do not need to begin installation or administrator privileges. Tested products: ESET Remote Administrator, ESET Endpoint Security, Kaspersky Small Office Security Source: AV-Comparatives, IT Security Products for Small Business, September 2016

ESET vs. Kaspersky Lab

Awards

VB100 Awards

Virus Bulletin, www.virusbtn.com,
05/1998 - 12/2016

ESET has not failed a single Virus Bulletin VB100 test since February 2001, while Kaspersky Lab has failed a total of twenty times. ESET does not hesitate to enter public tests that demonstrate its technology's quality and performance.

Performance Test Advanced+ Awards

AV-Comparatives, www.av-comparatives.org,
12/2009 - 12/2016

Over seven years, ESET has passed fifteen Performance Tests, fourteen of them with Advanced+ Award, which is the highest award from AV-Comparatives.

■ ESET ■ Kaspersky Lab

"The test corpus consisted of 81,796 emails. 73710 of these were spam, ESET, stood out for missing just four emails from the spam corpus."

Virus Bulletin
VBSpam Comparative Review, September 2016

"ESET received the highest rating in the AV-Comparative File Detection Test and was awarded with the File Detection, Advanced+ Award. The File Detection Test assesses the ability of antivirus programs to detect malicious files on a system."

AV-Comparatives
File Detection Test, March 2016

*"ESET Endpoint Security: The package detected all the malware threats in the test, with almost no burden on the System."
"ESET demonstrated excellent performance when it came to detecting over 11,000 selected Windows malware threats."*

AV-Test
12 Security Suites for Mac OS X Put to the Test, July 2016

"ESET protected against all of the public web-based threats and targeted attacks. It blocked 100 per cent of the threats. This software was also entirely effective when handling legitimate objects, giving it the rare privilege of a 100 per cent overall rating."

SE Labs
IT Security Products for Small Business, July-September 2016

**ESET earns 100th VB100 award**

"ESET has been a top performer in our tests since 1998, and today we are delighted to present their 100th VB100 award – a first for any single product over the years," said John Hawes, Chief of Operations at Virus Bulletin, "ESET NOD32's history of excellent performances and zero false positives is a clear indicator of a very well-built, well-maintained and extremely reliable product."
