

ESET vs. Panda Security

Protection

Detection rate (%)

AV-TEST

www.av-test.org

More Security for Mac OS X: 13 Security Packages Put to the Test, December 2015

ESET's products are designed with **built-in protection** from the very beginning, and this test result proves that ESET's approach works best.

Block rate (%)

NSS Labs

www.nsslabs.com

Consumer EPP Test Report: Exploits, June 2015

Blocking exploits is a critical component of an anti-malware product. When an exploit is blocked, the delivery of known and unknown malware is also blocked.

Protection with DEP and ASLR (%)

AV-TEST

www.av-test.org

Self Protection of Antivirus Software, October 2015

DEP and ASLR are mechanisms, available free, to protect security packages themselves against threats. **ESET is the only vendor, to score 100% twice in a row for DEP and ASLR protection.**

Performance

Impact score*

AV-Comparatives

www.av-comparatives.org

Performance Test, November 2015

Performance tests evaluate the **impact of anti-virus software** on system performance. Taking these tests as a reference, users can evaluate their antivirus protection in terms of system speed (system performance).

Overall score

PassMark

www.passmark.com

Consumer Security Performance Benchmarks, November 2015

According to a 2015 IT security survey by AV-Comparatives, low **impact on system performance is important** for 64% of participants. ESET promises to achieve excellent performance in a way that doesn't impact its customers' experience.

Standard activities - time increase (%)*

Virus Bulletin

www.virusbulletin.com

VB100 Comparative Review on Windows 7 Pro 64 bit, August 2015

Faster operation and lower resource consumption mean **better performance**. ESET is faster and lighter than Panda Security in many scenarios.

ESET vs. Panda Security

Awards

VB100 Awards

Virus Bulletin, www.virusbtn.com,
05/1998 - 01/2016

Since May 1998, ESET has passed every Virus Bulletin test in which it has participated, except one. Panda Security did not participate in 79 tests and failed a total of 5 times. ESET does not hesitate to prove its quality in public tests.

Proactive Advanced+ Awards

AV-Comparatives, www.av-comparatives.org,
05/2004 - 01/2016

Many new malware samples appear every day, which is why it is important that antivirus products not only provide new updates as frequently and as quickly as possible, but also that they are able to detect such threats in advance using generic/heuristic techniques and behavioral detection measures.

■ ESET ■ Panda Security

"Thanks to this outstanding performance, ESET finishes with the highest final score of all products, and a very well-deserved VBSpam+ award."

Virus Bulletin
VBSpam Comparative Review, November 2015

"ESET have continuously participated in our tests for a decade and we are happy to see ongoing commitment to product improvement."

AV-Comparatives
Anniversary Report, July 2015

"ESET achieved a 100 percent malware detection rate in both test segments – real-time test and reference set."

AV-TEST
The Best Android Apps – 25 System Watchdogs in an Endurance Test, December 2015

"We feel the Windows protection software is exceptionally well designed, with important information and functions easily accessible, but unauthorized access prevented."

AV-Comparatives
IT Security Products for Small Business, October 2015

ESET earns 'Top Rated' award from AV-Comparatives

In addition to being named a *Top Rated Product*, ESET Smart Security 9 won the *Silver Award* in the False Positives category and the *Bronze Award* for Proactive Protection. The report highlights the improved graphical user interface (GUI) in ESET Smart Security 9, as well as its "excellent and comprehensive documentation."
