Consumer Endpoint
Protection Test Report –
Exploit
June 2015

Blocking exploits is a critical component of an anti-malware product. When an exploit is blocked, the delivery of known and unknown malware is also blocked.

Performance

Impact on Internet connection speed (%)*

ComputerBild

Consumer Security
Performance Benchmarks,
November 2015

Faster operation and lower resource consumption mean **better performance**. ESET is faster and lighter than Symantec in many scenarios.

Symantec

*Lower is better

Feature	ESET Remote Administrator	Symantec Endpoint Protection	Why It Matters
Anti-Spam (Windows)	●	○	Local Anti-Spam effectively filters out spam on a user's endpoint device and scans all incoming emails for malware. It prevents unauthorized access to the company network and provides effective anti-hacker protection and data exposure prevention.
Data Backup (Windows)	●	○	ESET Remote Administrator includes the ESET Remote Administrator Maintenance Tool that can be used to maintain and back up a server. Backing up a server is an important step in the process of migrating ESET Remote Administrator and client workstations to a new server.
Anti-Phishing (Windows)	●	○	Anti-Phishing protection, which uses URL blacklists and checks reputations, prevents users from accessing sites with malicious content and/or phishing sites.

Sm

Awards

VB100 Awards

Virus Bulletin, www.virusbtn.com,
05/1998 - 01/2016

Since May 2003 ESET has participated in and passed every single test by Virus Bulletin, while Symantec has failed to participate 33 times. ESET does not hesitate to enter public tests that demonstrate its technology's quality and performance.

Proactive Advanced+ Awards

AV-Comparatives, www.av-comparatives.org,
05/2004 - 01/2016

Many new malware samples appear every day, which is why it is important that antivirus products not only provide new updates, but also detect such threats in advance with generic/heuristic techniques and behavioral protection measures.

■ ESET ■ Symantec

"Thanks to this outstanding performance, ESET finishes with the highest final score of all products, and a very well-deserved VBSpam+ award."

Virus Bulletin
VBSpam Comparative Review, November 2015

"ESET have continuously participated in our tests for a decade and we are happy to see ongoing commitment to product improvement."

AV-Comparatives
Anniversary Report, July 2015

"ESET achieved a 100 percent malware detection rate in both test segments – real-time test and reference set... the app from Symantec missed the top score..."

AV-Test
The Best Android Apps – 25 System Watchdogs in an Endurance Test, December 2015

"We feel the Windows protection software is exceptionally well designed, with important information and functions easily accessible, but unauthorized access prevented."

AV-Comparatives
IT Security Products for Small Business, October 2015

ESET earns 'Top Rated' Award from AV-Comparatives

In addition to being named a *Top Rated Product*, ESET Smart Security 9 won the *Silver Award* in the False Positives category and the *Bronze Award* for Proactive Protection. The report highlights the improved graphical user interface (GUI) in ESET Smart Security 9, as well as its "excellent and comprehensive documentation."
