The best antivirus – and we're not the only ones convinced of that

Avira Internet Security Suite constantly receives top scores for malware detection, low system impact, user friendliness, as well as repair and self-defense functions. In renowned tests by Virus Bulletin, AV-Test, and AV-Comparatives Avira products leave their international competitors trailing, scooping countless test victories and awards.

Avira Online Essentials: Overview of all devices

Avira Online Essentials offers the latest generation of security: Centralized security management of all devices via the Internet. With Online Essentials you always have complete control of all your devices' security.

- Security status: Get an overview of your latest scan results.

- Display helpful system information: Disk space use, hardware configuration, and more.

- See an overview of what apps you've got installed, and easily add further security apps as and when you want.

- Manage your friends' and family's devices if they want and agree.

- Receive alerts if your or your contact's email account fall victim to an attack.
